AA Infinite Global Alliance

"TOGETHER, WE RISE HIGHER AND ACHIEVE MORE!"

Global Challenges: Complex, fast moving and truly global

The manufacturing environment is evolving rapidly.

The business procedures, decision making processes and the field of activity are complex and truly global.

The lack of local presence, language, cultural differences and specific customer needs are challenging for component manufacturers and service providers.

AAIG Alliance: Cost Comparison

What if... you don't need to increase your budgets to grow your business ?

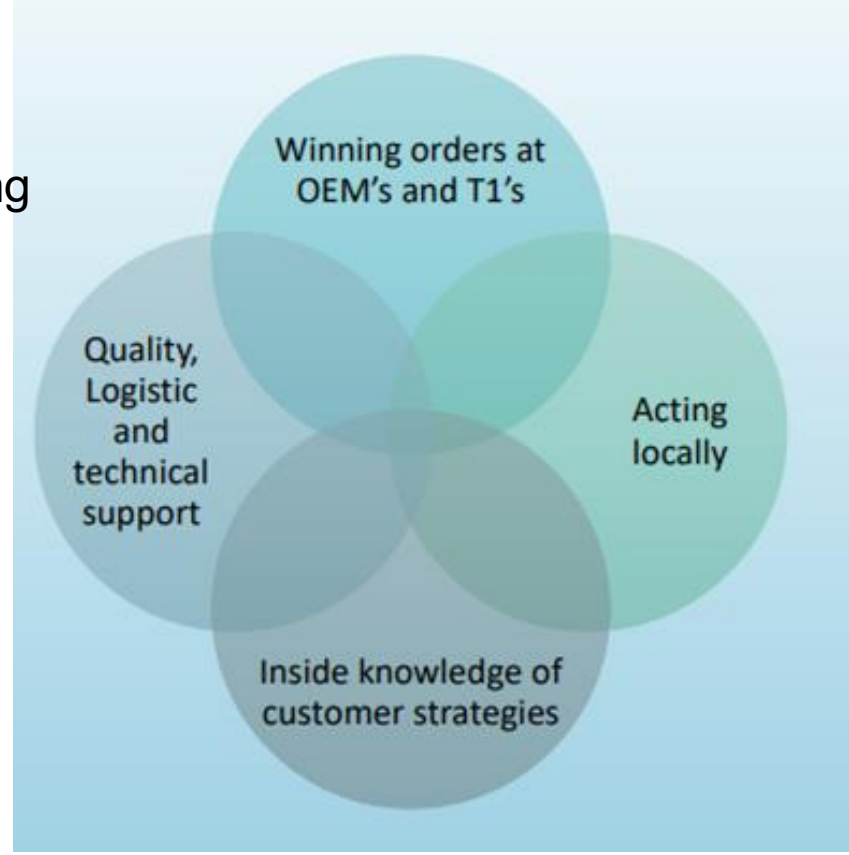

AAIG's costs are significantly lower than deploying a supplier's in-house global team... and is more flexible to adapt to customer and supplier demands. This helps suppliers to maintain their margins.

AAIG Alliance: Introduction,Products and Services

Introduction:

AAIG With a 25 years of experience in the automotive industry.

1. We work globally to win business for suppliers to the automotive industry.
2. We service that business with support in quality, supply chain & engineering
3. We offer suppliers a local presence globally for their customers.
4. Customized warehousing solutions, including complex value-added services tailored to client needs.Our end-to-end storage and inventory management capabilities empower manufacturers to maintain stock control while benefiting from personalized operational support.

Products and Services :

1. Automotive Representatives For Supplies and Customers
2. An extension of your own sales force, based globally .
3. An extension of your own quality, logistic, technical team, based globally.
4. Working in the same time zone and language as the customer, reassures them and gives them confidence to source overseas suppliers.
5. Experienced employees able to discuss with customers, projecting a professional face to the customer.

AAIG : Case Study Highlights

01	Recovered Blocked Inventory – DDC (USA)	• - 3,980 castings blocked since 2018 (₹4 Cr inventory value) • - Replaced manual rework with fixture-based solution • - Improved productivity, ensured DDC quality approval • - Led cross-functional virtual meetings between Alicon India and DDC USA • - Recovered blocked inventory and established new rework process
02	Fast-Track Resolution – MAHLE Behr (USA)	• - 14,000 CAC tanks flagged for corrosion at Charleston • - MAHLE requested Alicon team visit – AAIG intervened • - Arranged local executive in 48 hours • - Issue resolved directly with MAHLE; site visit canceled
03	Complex Deviation Resolution – Volvo Trucks via Danfoss (Estonia)	• - 480 E-filter castings blocked for over 1.5 years (₹15+ Lakhs) • - Scrap approval was reversed through AAIG-led recovery • - Coordinated inputs from Alicon, Danfoss, and Volvo • - Acceptance criteria revised with official deviation • - Result: Perpetual cost savings on future batches
04	Onsite Quality Support – Dana (Mexico)	• - Addressed part number engraving mismatch • - AAIG team supported local containment and resolution
05	Strategic Warehousing – Wixom, MI (USA)	• 1,600+ pallets shipped post-Alicon approval on 26 Jan 2025 • - AAIG executed full setup in 10 days (vs 1-month timeline) • - 1,000+ pallet warehouse operational with 100% EDI/ASN • - Delivered ₹1.2 Cr savings & improved program margin • - Customized reports, INR billing efficiency, real-time support
